

#Ozwater22 is less than a week away!

This year, the exhibition will be held from the 10th to the 12th May at the Brisbane Convention & Exhibition Centre.

#Ozwater22 is Australia's most important international annual water conference & exhibition and is a major highlight of the water sector's annual events.

At Aquatec Maxcon, we are continuing our tradition of pioneering new technologies and would love to share our experiences over the past 52 years of business. We are proud of playing our role in introducing innovative solutions to the Australian water industry.

Come and visit us at Stand Number K02!
